

# YOGANT PATIL

## Aspiring Data Scientist | Machine Learning Engineer | Data Analyst

Email: yogantpatil@gmail.com | Phone: +91 98765 43210 | Location: Pune / Mumbai, India

GitHub: github.com/yogant18 | LinkedIn: linkedin.com/in/yogant-patil | Kaggle: kaggle.com/yogantpatil

## EDUCATION

### COEP Technological University, Pune

Aug 2024 - July 2026

Master of Technology (M.Tech) in Data Science | CGPA: 8.16 / 10

- Thesis: Explainable Graph-based Learning Framework for Drug-Drug Interaction Prediction

### Fr. Conceicao Rodrigues Institute of Technology, Navi Mumbai

Aug 2019 - May 2023

Bachelor of Technology (B.Tech) in Computer Engineering | CGPA: 8.84 / 10

## RESEARCH & PUBLICATIONS

### Explainable Graph-based Learning Framework for Drug-Drug Interaction Prediction

Published in IEEE Conference Publication | IEEE Xplore: document/11581200

- Engineered Graph Attention Networks (GAT) with attributed molecular graphs & biological features using PyTorch Geometric.
- Achieved 98.24% cold-start accuracy & 97.22% AUPR on DrugBank; integrated SHAP for clinical explainability of CYP enzymes.

## INTERNSHIP EXPERIENCE

### Data Analyst Intern - Infyntrek Systems

Sep 2025 - Dec 2025

- Built automated SQL ETL data pipelines and cleaning workflows for financial datasets using SQL, Python, and Pandas.
- Trained Machine Learning classification models for credit risk scoring and customer segmentation via RFM and K-Means.
- Developed dynamic interactive Power BI dashboards tracking business KPIs, improving analysis efficiency by 60%.

### Machine Learning & AI Virtual Intern - Vodafone Idea Foundation | Edunet Foundation

Jan 2025 - Oct 2025

- Developed NLP and Retrieval-Augmented Generation (RAG) workflows using Python, LangChain, embeddings, and vector DBs.
- Built natural language data querying solutions and evaluated LLM prompt engineering pipelines for generative applications.

## FEATURED PROJECTS

### Telco Customer Churn ML Platform | Python, Scikit-learn, FastAPI, Docker, AWS, Streamlit

- Developed end-to-end churn prediction pipeline with automated preprocessing, model monitoring, and containerized FastAPI serving.

### AI Video Assistant | Python, Mistral AI, LangChain, RAG, ChromaDB, Streamlit

- Multilingual video/audio transcription and action item extraction with an interactive RAG conversational Q&A system.

### Vendor Invoice Intelligence System | Machine Learning, Scikit-learn, SQL, Streamlit

- ML-based invoice risk scoring and freight cost regression models with an interactive analytics dashboard.

### FlytBase Outbound Account Intelligence | Hackathon Project - Data Analytics, JavaScript, API Integration

- Built automated prospect intelligence platform and interactive dashboard for enterprise mining operations across Latin America.

## TECHNICAL SKILLS

Programming & Data: Python, SQL, Pandas, NumPy, Excel

Machine Learning & DS: Supervised/Unsupervised Learning, Feature Engineering, Regression, Classification, Clustering, EDA

AI & Advanced ML: Deep Learning, NLP, Computer Vision, Generative AI, Large Language Models (LLMs), RAG, LangChain

Data Analytics & BI: Power BI, DAX, Dashboard Development, Business Intelligence, Data Cleaning, Data Storytelling

Frameworks & Tools: Scikit-learn, PyTorch, PyTorch Geometric, TensorFlow, OpenCV, Hugging Face, Jupyter, Git, GitHub

Research & Methods: Graph-based Learning (GNN/GAT), Explainable AI (XAI/SHAP), Cold-Start Model Evaluation

## ACHIEVEMENTS & CERTIFICATIONS

- Author of IEEE Published Research Paper on Explainable Graph-based Drug-Drug Interaction Prediction (2026).
- Top Performer in AICTE / VOIS Virtual Internship Program in Data Science & Machine Learning (2025).
- Participant & Finalist in FlytBase Outbound Account Intelligence Enterprise Hackathon.
